

Instructions: Login

Resource name	Login
Description	This resource allows you to create a puzzle whose solution requires participants to log in using a username and/or a password.
Usage requirements	None.
Settings	
Require username	This setting allows you to specify whether the participant must enter a username in addition to a password to solve the puzzle.
Username	This setting allows you to specify the username. If it is left blank and the “Require username” setting is enabled, the username text field will appear blank.
Password placeholder	This setting allows you to define text that will appear inside the text box of the password and will automatically disappear when participants begin typing.
Avatar	This setting allows you to specify an avatar for the user. You can enter the URL of any image from your resource catalog.
Help message	This setting allows you to specify a help message for participants. If you define this message, a “I forgot my password” button will be displayed, and the message will be revealed when participants click it.

Action after solving	<p>This setting allows you to select the action that will be carried out after the puzzle is solved. It can take the following values:</p> <table border="1" data-bbox="398 208 1453 646"> <tr> <td data-bbox="398 208 663 265">None</td><td data-bbox="663 208 1453 265"></td></tr> <tr> <td data-bbox="398 265 663 366">Show message</td><td data-bbox="663 265 1453 366">If this action is selected, a message will be shown to participants when they successfully log in. The message can be customized using the "Message" setting.</td></tr> <tr> <td data-bbox="398 366 663 467">Show web</td><td data-bbox="663 366 1453 467">If this action is selected, a website will be shown to participants when they successfully log in. The website URL must be specified using the "Web" setting.</td></tr> <tr> <td data-bbox="398 467 663 646">Show video</td><td data-bbox="663 467 1453 646">If this action is selected, a video will be shown to participants when they successfully log in. The video must be specified using the "Video" setting. In this setting, you can enter the URL of any video in an HTML5-compatible format from your resource catalog.</td></tr> </table>	None		Show message	If this action is selected, a message will be shown to participants when they successfully log in. The message can be customized using the "Message" setting.	Show web	If this action is selected, a website will be shown to participants when they successfully log in. The website URL must be specified using the "Web" setting.	Show video	If this action is selected, a video will be shown to participants when they successfully log in. The video must be specified using the "Video" setting. In this setting, you can enter the URL of any video in an HTML5-compatible format from your resource catalog.
None									
Show message	If this action is selected, a message will be shown to participants when they successfully log in. The message can be customized using the "Message" setting.								
Show web	If this action is selected, a website will be shown to participants when they successfully log in. The website URL must be specified using the "Web" setting.								
Show video	If this action is selected, a video will be shown to participants when they successfully log in. The video must be specified using the "Video" setting. In this setting, you can enter the URL of any video in an HTML5-compatible format from your resource catalog.								
Background	<p>This setting allows you to change the default background of the resource. You can enter the URL of any image from your resource catalog.</p>								
Solution	<p>You must link this resource to an escape room puzzle and specify a solution for that puzzle. The required format of the solution will vary depending on whether the setting "Required username" is enabled.</p> <p>If the "Require username" setting is enabled, the solution must follow this format: Username;password</p> <p>For example, if you want participants to enter the username "John Doe" and the password "1234J" in order to solve the puzzle, the following solution must be specified:</p> <p style="text-align: center;"><i>John Doe;1234J</i></p> <p>If the "Require username" setting is disabled, the solution must simply be the password that participants must enter to solve the puzzle. For example, if the required password is "1234J", the solution must be:</p> <p style="text-align: center;">1234J</p>
