

Instructions: Telephone

Resource name	Telephone	
Description	This resource allows you to create a telephone in which participants can dial sequences of numbers, letters, colors, or symbols. The telephone can be linked to an escape room puzzle and its solution.	
Usage requirements	None.	
Settings		
Skin	This setting allows you to select the appearance of the telephone. It can take the following values: "Smartphone" or "Rotary phone".	
Show feedback using a light	This setting is only available for the “Rotary phone” skin and allows you to add a light that informs participants whether the dialed sequence is correct or not.	
Type of elements	This setting allows you to select the type of elements the telephone will have. It can take the following values: "Numbers", "Letters", "Colors", or "Symbols".	
Action after solving	This setting allows you to select the action that will be carried out after the puzzle is solved. It can take the following values:	
	None	
	Show message	If this action is selected, a message will be shown to participants when they dial the correct sequence. The message can be customized using the "Message" setting.
	Play sound	If this action is selected, a sound will be played when the participants dial the correct sequence. The “Sound” setting allows you to specify the audio to be played via a URL. If no sound is specified using this setting, a generic audio will be played.
Disable after solving	This setting allows all interactions with the telephone to be disabled after the linked puzzle has been solved.	

Contacts	In this section you can define contacts for the telephone. For each contact you can specify the following settings: <table border="1"> <tr> <td data-bbox="416 219 587 353">Sequence</td><td data-bbox="587 219 1465 353">This setting allows you to specify a sequence of elements for the contact. Such a sequence may consist of numbers (e.g., a phone number), letters, colors, or symbols. The sequence format must be the same as the one described in the “Solution” section.</td></tr> <tr> <td data-bbox="416 353 587 432">Sound</td><td data-bbox="587 353 1465 432">This setting allows you to specify, via a URL, the sound that will be played when the contact’s sequence is dialed on the telephone.</td></tr> <tr> <td data-bbox="416 432 587 510">Avatar</td><td data-bbox="587 432 1465 510">This setting allows you to specify, via a URL, the image that will be displayed on the telephone when the contact’s sequence is dialed.</td></tr> </table>	Sequence	This setting allows you to specify a sequence of elements for the contact. Such a sequence may consist of numbers (e.g., a phone number), letters, colors, or symbols. The sequence format must be the same as the one described in the “Solution” section.	Sound	This setting allows you to specify, via a URL, the sound that will be played when the contact’s sequence is dialed on the telephone.	Avatar	This setting allows you to specify, via a URL, the image that will be displayed on the telephone when the contact’s sequence is dialed.																										
Sequence	This setting allows you to specify a sequence of elements for the contact. Such a sequence may consist of numbers (e.g., a phone number), letters, colors, or symbols. The sequence format must be the same as the one described in the “Solution” section.																																
Sound	This setting allows you to specify, via a URL, the sound that will be played when the contact’s sequence is dialed on the telephone.																																
Avatar	This setting allows you to specify, via a URL, the image that will be displayed on the telephone when the contact’s sequence is dialed.																																
Background	This setting allows you to change the default background of the resource. You can enter the URL of any image from your resource catalog.																																
Solution	You can link the telephone to an escape room puzzle and specify a solution for that puzzle. If you do so, participants will be able to solve the puzzle by dialing a specific sequence of numbers, letters, colors, or symbols. The format that the solution must follow depends on the value you selected for the “Type of elements” setting: <table border="1"> <tr> <td data-bbox="416 801 667 902">Numbers</td><td data-bbox="667 801 1465 902">The solution must be a sequence of digits separated by a semicolon (;). For example: 1;2;3;4</td></tr> <tr> <td data-bbox="416 902 667 1003">Letters</td><td data-bbox="667 902 1465 1003">The solution must be a sequence of uppercase letters separated by a semicolon (;). For example: A;B;C;D</td></tr> <tr> <td data-bbox="416 1003 667 1664">Colors</td><td data-bbox="667 1003 1465 1664"> The solution must be a sequence of color names, each starting with a capital letter and separated by a semicolon (;). For example: Red;Blue;Green The telephone allows the following colors to be dialed: <table border="1"> <thead> <tr> <th>Color</th><th>Name</th></tr> </thead> <tbody> <tr><td></td><td>Red</td></tr> <tr><td></td><td>Green</td></tr> <tr><td></td><td>Blue</td></tr> <tr><td></td><td>Yellow</td></tr> <tr><td></td><td>Orange</td></tr> <tr><td></td><td>Pink</td></tr> <tr><td></td><td>Cyan</td></tr> <tr><td></td><td>Purple</td></tr> <tr><td></td><td>Brown</td></tr> <tr><td></td><td>Black</td></tr> <tr><td></td><td>Gray</td></tr> <tr><td></td><td>White</td></tr> </tbody> </table> </td></tr> </table> With the “Rotary phone” skin, only the first 10 colors will be available.	Numbers	The solution must be a sequence of digits separated by a semicolon (;). For example: 1;2;3;4	Letters	The solution must be a sequence of uppercase letters separated by a semicolon (;). For example: A;B;C;D	Colors	The solution must be a sequence of color names, each starting with a capital letter and separated by a semicolon (;). For example: Red;Blue;Green The telephone allows the following colors to be dialed: <table border="1"> <thead> <tr> <th>Color</th><th>Name</th></tr> </thead> <tbody> <tr><td></td><td>Red</td></tr> <tr><td></td><td>Green</td></tr> <tr><td></td><td>Blue</td></tr> <tr><td></td><td>Yellow</td></tr> <tr><td></td><td>Orange</td></tr> <tr><td></td><td>Pink</td></tr> <tr><td></td><td>Cyan</td></tr> <tr><td></td><td>Purple</td></tr> <tr><td></td><td>Brown</td></tr> <tr><td></td><td>Black</td></tr> <tr><td></td><td>Gray</td></tr> <tr><td></td><td>White</td></tr> </tbody> </table>	Color	Name		Red		Green		Blue		Yellow		Orange		Pink		Cyan		Purple		Brown		Black		Gray		White
Numbers	The solution must be a sequence of digits separated by a semicolon (;). For example: 1;2;3;4																																
Letters	The solution must be a sequence of uppercase letters separated by a semicolon (;). For example: A;B;C;D																																
Colors	The solution must be a sequence of color names, each starting with a capital letter and separated by a semicolon (;). For example: Red;Blue;Green The telephone allows the following colors to be dialed: <table border="1"> <thead> <tr> <th>Color</th><th>Name</th></tr> </thead> <tbody> <tr><td></td><td>Red</td></tr> <tr><td></td><td>Green</td></tr> <tr><td></td><td>Blue</td></tr> <tr><td></td><td>Yellow</td></tr> <tr><td></td><td>Orange</td></tr> <tr><td></td><td>Pink</td></tr> <tr><td></td><td>Cyan</td></tr> <tr><td></td><td>Purple</td></tr> <tr><td></td><td>Brown</td></tr> <tr><td></td><td>Black</td></tr> <tr><td></td><td>Gray</td></tr> <tr><td></td><td>White</td></tr> </tbody> </table>	Color	Name		Red		Green		Blue		Yellow		Orange		Pink		Cyan		Purple		Brown		Black		Gray		White						
Color	Name																																
	Red																																
	Green																																
	Blue																																
	Yellow																																
	Orange																																
	Pink																																
	Cyan																																
	Purple																																
	Brown																																
	Black																																
	Gray																																
	White																																

Symbols

The solution must be a sequence of symbol names, each starting with a capital letter and separated by a semicolon (;).
For example: *Triangle;Square;Circle;Moon;Sun*
The telephone allows the following symbols to be dialed:

Symbol	Name
	<i>Triangle</i>
	<i>Square</i>
	<i>Circle</i>
	<i>Rhombus</i>
	<i>Spades</i>
	<i>Hearts</i>
	<i>Clubs</i>
	<i>Diamonds</i>
	<i>Star</i>
	<i>Moon</i>
	<i>Sun</i>
	<i>Puzzle</i>

With the “Rotary phone” skin, only the first 10 symbols will be available.
